SCMS Manager Standards Board and Ecosystem Audit Committee
Policies, Terms and Charters

Effective November 15, 2022, the SCMS Manager Standards Board and Ecosystem Audit Committee recognizes the following published Policies, Terms and Charters. These documents are recognized by SCMS Consortium Members as the operating policies of the SCMS Manager and Consortium Members agree to apply these policies in the development, deployment, and operation of SCMS related technology and infrastructure. The SCMS Manager Standards Board and Ecosystem Audit Committee may update this list of Policies, Terms and Charters from time to time.

These Polices, published at https://www.scmsmanager.org/publications/, are recognized by the SCMS Manager Audit Committee:

- End-Entity Requirements, Design Guidance, and Validation Approach - v1.00, March 14, 2021
- EE Certificate Rollover (Re-Enrollment) Technical Standard – v1.0, October 8, 2020
- ASN.1 for Misbehavior Reporting – v1.1, April 23, 2019
- Misbehavior Report and Application Specification for Connected Vehicle Pilot Deployment – v1.0, February 14, 2019
- Elector Technical Specification – v1.1, January 20, 2020
- Elector Policy – v1.1, January 20, 2020
