

SCMS Manager Consortium Member Benefits

The following benefits apply to select Members of the SCMS Manager Consortium (the “Consortium”) based on membership level:

Core Member

Core Members are commercial vehicle OEM companies who either have V2X products in production at the time of application or which are planned for production by 2023. Core Members are current in their dues payment and as such have the following privileges:

- Eligibility to nominate a representative from its Applicant to the SCMS Manager Standards Board (“Standards Board”) and to the SCMS Manager Ecosystem Audit Committee (“Audit Committee”). Appointments of nominees to the Standards Board and Audit Committee are subject to the final approval of the SCMS Manager President.
- The Standards Board is responsible for the creation of working groups & committees for the development of standards, policies and guidance for the V2X ecosystem. It is responsible for recommending working group documents to the SCMS President for publication. It is also responsible for overseeing liaison activities with external standards bodies (such as IEEE and SAE) and test bodies (such as OmniAir).
- The Audit Committee is responsible for the annual verification that Applicants contracted with SCMS Manager, such as root CAs and Electors, are compliant with their contractual obligations to SCMS Manager and adherence to the Ecosystem standards, policies and guidelines published by SCMS Manager. The Audit Committee will recommend the removal/revocation of non-compliant Applicants from the SCMS Manager-supervised V2X ecosystem
- Eligibility to have their representative appointed by the SCMS President as chairperson of working groups and committees (including the Audit Committee).
- Eligibility for licensed access to certain restricted SCMS Manager’s intellectual property.
- Eligibility for licensed access to the ISS Certificate Management Service (CMS) and Misbehavior Authority Service (MAS) for pre-production use only at no additional charge.
- Access to the member-only portion of SCMS Manager website.

Associate Member

Associate Members are commercial companies who either have V2X products in production at the time of application or which are planned for production by 2023. Associate Members are current in their dues payment and as such have the following privileges:

- Eligibility to accept assignment as a member by the SCMS President to committees and working groups.
- Eligibility to vote on work output of committees/working groups of which they are a member for recommendation for advancement to the Standards Board.
- Eligibility for licensed access to certain restricted SCMS Manager's intellectual property.
- Eligibility for licensed access to the ISS Certificate Management Service (CMS) and Misbehavior Authority Service (MAS) for pre-production use only at no additional charge.
- Access to the member-only portion of SCMS Manager website.

Observer Member

Observer Membership is available to Applicants that are (i) national, federal, state or local governmental agencies or who are contracted by US federal governmental agencies to act on their behalf and who do not provide or plan to provide commercial products or services to the V2X ecosystem (with the exception of non-SCMS traffic management services) or (ii) commercial companies that do not provide or plan to provide commercial products or services to the V2X ecosystem (with the exception of non-SCMS traffic management services). Observer Members have the following privileges:

- Eligibility to attend any open meeting of SCMS Manager.
- Observer Members have no voting rights.
